

NEXT TECH

YOUR GATEWAY TO GENERATION NEXT IN GLOBAL TECHNOLOGY SOLUTIONS

At **G-NEXT TECH**, we believe in the transformative power of technology. We are dedicated to enabling businesses worldwide by providing cutting-edge solutions that simplify operations, enhance security, and drive innovation. With over a decade of expertise, G-Next Tech has established itself as a trusted name in the technology space, where we bridge the gap between what's possible and what's practical, delivering advanced systems that inspire confidence, foster efficiency, and elevate performance across industries. From futuristic payment systems and smart gadgets to sustainable energy storage, G-Next Tech is leading the charge towards a smarter, more connected future.

Innovating technology for Industries across the globe

We redefine industrial electronics with our comprehensive product range, offering state-of-the-art **Integrated POS, biometric devices, Cloud speaker series, Printers, Software solutions, IoT gadgets, and Energy storage solutions and more** - all engineered to support the success of modern enterprises in an increasingly competitive global marketplace. Explore the power of G-Next and unlock the full potential of your business.

Our Product Offerings

POS Series

Redefining payment solutions with advanced technology
"Secure, fast, and efficient payments - anytime, anywhere."

Smart POS
 A smart way to seamlessly process payments in a dynamic environment with multiple applications.

Smart Bio POS
 Designed for seamless authentication and secure transactions, ideal for high-security applications.
"Combining authentication & security with speed for a frictionless payment experience."

Tablet POS
 A versatile, tablet-based POS solution combining mobility & functionality, perfect for modern retail, BFSI & e-governance environments.

ECR (Electronic Cash Register)
 Reliable and easy-to-use cash registers designed for efficient billing payments and inventory management.

RTOS POS
 Real-Time Operating System-based POS devices offering unmatched speed, stability, & low latency for high-transaction environments.

Linux POS
 Secure and scalable POS devices powered by Linux, ideal for businesses looking for flexible and cost-effective payment solutions.

Biometric Series

Next-gen biometric sensors for diverse applications
"Unlock the future with precision-driven biometric technology."

Gnext Biometric scanners offer a versatile range of variants, including FAP-10, FAP-20, and FAP-30 models, equipped with advanced optical, thermal, and capacitive technology sensors. Our portfolio includes 4-4-2 scanners, single-eye IRIS scanners, and MOSIP-supported fingerprint scanners, and more, tailored to meet diverse business requirements with security and reliability.

Printer Series

Rugged, durable and reliable printers built for high-volume printing in industrial, logistics and on-the-go applications, delivering clarity and durability.

"Efficient printing for every business requirement."

Label Printing:
2" / 3"

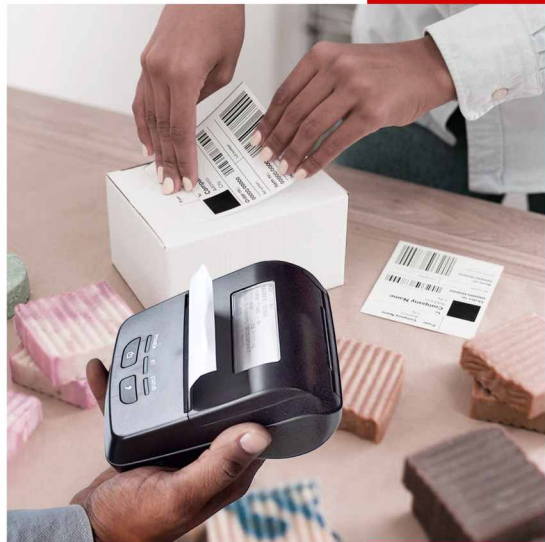

Receipt Printing

Impact Printers

A4 Printing

Cloud Speaker Series

Innovative solutions for dynamic business environments.
"Elevating communication with cutting-edge sound technology."

Static QR Code
GCS-AS

Static + LED Display
GCS-ASL

Dynamic QR Code
GCS-AD

Tap & Pay

Tap & Pay cloud speaker, powered by advanced NFC technology, is an innovative payment solution designed for seamless, secure, and contactless transactions. Available in RTOS and Android versions, it enables businesses to process payments quickly and efficiently with just a tap of a card or smartphone.

Applications

Agency Banking

MFI

SAACOS

eKYC

Insurance

Telecom

Transit

eGOV

DFS

National Id Projects

Retail & Merchant Acquiring

Border Control Immigration

Doorstep Banking Services

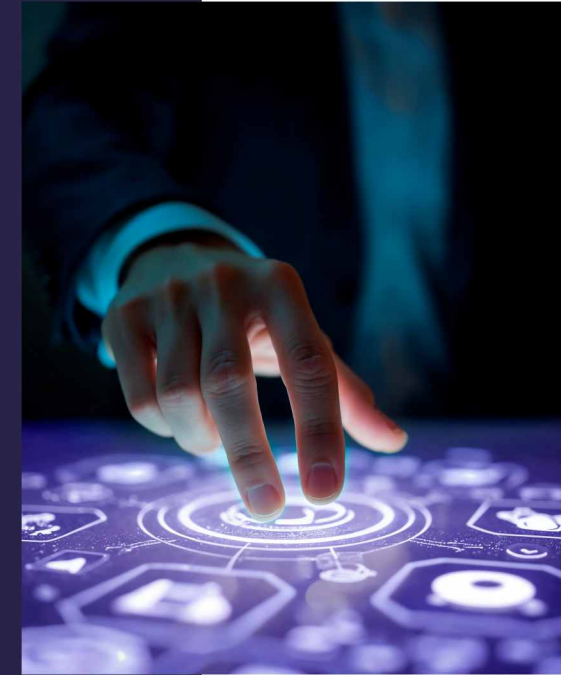

Digital Onboarding

Software Solutions

Customizable and scalable software solutions designed for streamlined operations.

"Transforming your processes with seamless software solutions tailored to your needs."

Mobiles & Tablets

Reliable mobile devices and tablets for business and personal applications.

"Mobile solutions designed for productivity, wherever you are."

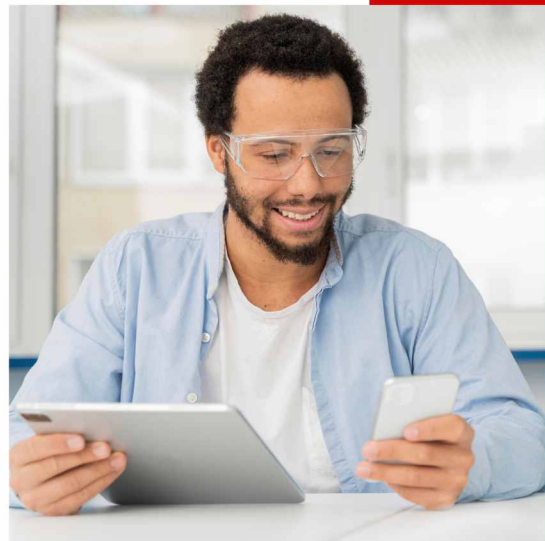

High-speed connectivity and multi-functional designs.

Mobile

Tablet

IoT, Smart Gadgets & Wearables

Enhancing connectivity and lifestyle with cutting-edge technology.

"Revolutionizing the way you interact with the world."

OBU Devices
Optimized for vehicle tracking and navigation

Smart Metering
Real-time energy monitoring

Smart Watch
Stylish, functional, and feature-rich wearables

Ear Pods
Premium sound quality with ergonomic design

Smart Rings
Discreet wearable tech for on-the-go convenience

Energy Storage Solutions

Powering the future with sustainable energy solutions.

"Harness the power of sustainable energy for a greener tomorrow."

- Lithium-ion Technology
 - Drone Batteries
 - Electric Vehicle Batteries
 - Golf Cart Batteries
 - Grid Storage Solutions
- Battery Management Solutions
 - Portable Backup Batteries
 - Renewable Energy Storage Modules
